

Under the Auspices of:

International Symposium on Dams and Earthquakes 7th Meeting of the EWG, Athens, 2024

Call for Abstracts

Place: Athens, Greece

Date: 25-27 September 2024

Themes:

- Earthquake hazard parameters (e.g., ground motion, surface fault movements) for dam safety evaluation
- Measurement of seismic and post-seismic response of concrete and embankment/tailings dams
- Experimental behavior and modeling of dam materials under cyclic loading
- Seismic performance of concrete dams and their impacted area. Case histories, analysis & validation, design
- Seismic performance of embankment/tailings dams and their impacted area. Case histories, analysis & validation, design
- Earthquake safety evaluation of safety-critical dam elements (e.g. spillways, low-level outlets)

Important Dates – Deadlines:

Abstract Submission: December 15th, 2023 - Submit abstracts: info@eemf.gr

Full paper Submission: May 15th, 2024

Host Committee: Greek Committee on Large Dams (GCOLD)

Organizing Committee:

P. Dakoulas (University of Thessaly, GCOLD member)

G. Dounias (Edafos S.A., GCOLD H. President)

S. Lazaridou (Hydroexigiantiki SA, GCOLD Secretary General, EurCOLD President)

C. Papachatzaki (Public Power Corporation, Greece, GCOLD President)

A. Papadimitriou (National Technical University of Athens, GCOLD member)

G. Veylon (INRAE, EWG on Dams and Earthquakes Chair)
